theory. a general statement about how some parts of the world fit together and how they work; an explanation of how two or more facts are related to one another. symbolic interactionism. a theoretical perspective in which society is viewed as composed of symbols that people use to establish meaning, develop their views of the world, and communicate with one another.
The positivist perspective in sociology—introduced above with regard to the pioneers of the discipline August Comte and Émile Durkheim—is most closely aligned with the forms of knowledge associated with the natural sciences. The emphasis is on empirical observation and measurement (i.e., observation through the senses), value neutrality or objectivity, and the search for law-like statements about the social world (analogous to Newton’s laws of gravity for
the natural world). Chapter 1. An Introduction to Sociology – Introduction to ...
